VISION, MISSION & VALUES

OUR VISION

Our employees' client satisfaction, talent and commitment are the key factors to our future success. Our values have established that "working together" creates more than just a business opportunity; it creates a long-term relationship for multi-dimension growth of all parties involved.

OUR MISSION

We strive to accomplish complete satisfaction from our clients. As an MEP contractor, our workforce is skilled and incessantly upgraded to provide cost-effective engineering solutions and their implementation with premier quality in conformity with requirements, specifications technical and safety standards.

We promise less and put all our efforts into delivering more. We plan our commitments and are well aware of the industry trends and clients' interest in promptly completing given assignments in compliance with all the constraints. The mission is to build on our reputation for integrity, merit, understanding and headship as the nation's finest construction organization by -

- Constantly monitoring and improving our quality
- Achieving the client's expectations and satisfaction
- Maintaining our loyalty & impetus to the highest ethical values
- Providing our staff with an emergent environment to achieve personal career goal

OUR VALUES

- Upholding the highest standard of integrity for all our actions
- Working as a team across boundaries to meet customer requirements & to help the organization
- Value our people, encourage their development & reward their performance

HEALTH, SAFETY & ENVIRONMENT POLICY

OUR COMMITMENT

NABW is firmly committed to a policy enabling all work activities to be carried out safely and with all possible measures taken to remove or manage them to levels that are as low as readably practicable to the health, safety and welfare of workers, contractors and anyone else who may be affected by our operations.

We are committed to complying with the internationally recognized Work Health, Safety and Environment standards.

REPSONSIBILITIES, GOALS & OBJECTIVES

MANAGEMENT

- Creating a safe and secure work environment
- Spreading awareness, training, and supervision to ensure each worker is safe from injuries
- Providing facilities for the welfare of workers
- A commitment to consulting and co-operating with workers in matters related to health and security in the workplace
- A commitment to continuously improve our performance through effective safety management techniques
- Conducting HSE training to all personnel involved in group operations

WORKERS:

Each worker has an obligation to:

- Comply with safe work practices to avoid injury to themselves and others and damage to plants and equipment
- Take reasonable care of the health and safety of themselves and others
- Wear personal protective equipment and clothing where necessary
- Comply with any direction given by management for health and safety
- Report all accidents and incidents on the job immediately, no matter how trivial
- Report all known or observed hazards to their supervisor or manager
- Not misuse or interfere with anything provided for health and safety

We look for the co-operation of all workers, customers and participants. We encourage suggestions for realizing our health and safety objectives to create a safe working environment with a zero-accident rate. This policy applies to all projects and sites

QUALITY POLICY

- We are determined to set the highest standards and benchmarks in electromechanical projects and constantly strive to achieve excellence in their execution through constant innovation and improvement and, above all, to always keep foremost in mind our responsibility to the environment and the well-being of our future generations
- To maintain the competitive position in our market and to improve our share in the international market with our quality, professional and timely service
- To offer the highest quality products, services and sound designs to meet customer satisfaction on time
- To provide excellent after-sales services/support with qualified, trained, responsible professionals on time with the highest safety at our place and on our customer premises
- Our policy is that every member of our organization shall do their best to ensure that our services are of the highest quality and meet overall customer expectations and requirements
- To monitor/review the procedures regularly through internal audits and management reviews to ensure their continued effectiveness in operation

OUR SERVICES

Chilled Water System

We are a fast-growing electromechanical contracting company in this region with a well-equipped sales, design & engineering, service & maintenance team.

Package Unit System
